Does your iron or hybrid game need a better answer? Pinhawk Golf has the Resolution!

The Resolution hybrid heads are designed for mid to high handicaps and feature extreme forgiveness, distance and accuracy. With ample volume, face height and width, perfect center of gravity placement, and variable face thickness, these hybrid heads are built for one thing: extreme game improvement.

They run the gamut, too: Available starting at a #1 hybrid for either a fairway finder off the tee or a long bomber from the fairway/rough, all the way down to a Sand Wedge hybrid (12 club options in all!).

The Pinhawk Resolution heads don't just have game improvement features, however. They also incorporate a skymark proof topline with an alignment dot to get your setup where you need it. They also spotlight a speedchamber design on the sole that maximizes ball speed even on a low-face strike. And they are so versatile: off the tee, fairway, rough, you will not have to hesitate no matter what lie you are presented with. Easy, high launching, forgiving, and accurate. Made from high quality 431 Stainless Steel.

While it's true you can't buy a game, the Pinhawk Resolutions will smooth out the rough edges of yours and your customers!

Available in Right handed, and (sit down for this one left handers), LEFT Handed too, in all lofts!
